SUMMARY

Experienced in software design and agile development, with a strong background in mobile and web development. Skilled in both independent and collaborative projects.

EXPERIENCE

Augmented Ally, USA— *Software Developer*

Mar 2023 - PRESENT

- Developed and enhanced features, including a work completion form, improving functionality and user experience.
- Refactored code for efficiency, maintainability, and seamless feature integration.
- Implemented offline support, boosting accessibility for users with limited internet access.
- Integrated Sentry for bug tracking, reducing bug-related downtime by 30%.
- Built and maintained a CMS compatible with Gatsby and Astro for dynamic marketing websites.
- Contributed to developing an admin panel with a user-friendly interface and robust functionality.
- Led the development and deployment of a Reservation and Payment app, ensuring a seamless user experience.

Technostacks Infotech Pvt Ltd, Ahmedabad — *Software Developer*

July 2022 - Feb 2023

- Developed a BLE app in React Native for real-time industrial battery monitoring, enhancing operational efficiency.
- Built a secure, role-based file storage website for efficient data management.
- Led the development of an HRM application, designing timetable and leave approval templates.
- Worked with cross-functional teams to integrate new features seamlessly, improving user experience.

Codentic software, Anand — *React Developer*

October 2020 - June 2022

- Developed and implemented new features, including a work completion form, enhancing application functionality and user experience.
- Optimized the codebase and added offline support, improving performance and reliability.
- Integrated Sentry for bug tracking, reducing issue identification and resolution time.
- Built an online menu project with QR-generated URLs and a Lottery QR code system with a vendor admin panel, increasing engagement.
- Fixed bugs in a Germany-based clubbing app, ensuring a seamless user experience.
- Led the development of user and delivery partner apps from scratch, demonstrating strong problem-solving and coding skills.
- Implemented Family Mode for group purchases, enhancing user experience and satisfaction.
- Integrated Razorpay API for secure and efficient payment processing.
